TESTIMONIALS

MICHEL USA
In my desperation for a natural healing, I shelled out little amount of money for Psor cure Treatment. It took forever to get the stuff but with the exceptional customer service at Dr. Dhawan's clinic, I was sent a shipment via courier and it arrived in exactly 7 days.

live skin disease free life

It was started in 1992 by Dr Shailender Dhawan and his team to treat chronic skin diseases and to guide the patient's best treatment options available in all the treatment methods (allopathy, Ayurveda, siddha, homeopathy) for their skin disease and to guide them what is best for them.

There was always a doubt in patients mind regarding choosing the right treatment method for their skin disease.

[Click Here](#)

It was presumed that allopath can give quick results but it suppresses the disease and is having long term side effects.

It is believed that homeopathy is slow and in some cases they first bring out the disease so the disease first spreads and then get cured .

Similarly about Ayurveda it is said that it is slow and is in form of churans and bitter extracts which are difficult to consume specially for kids.

Dr Shailender dhawan started working on patients suffering from Vitiligo Treatment (Leucoderma) and psoriasis under guidance of Dr.S.L.Vasant who was principal of ayurvedic medical college jaipur and was MD in medicine.

At that time Dr.Vasant was working at charitable wing of Escorts medical center Faridabad and we were having thousands of patients under our treatment and ample pool of patients for research and observation.

It was found with years of work that all the treatment methods have some positives and some draw backs .

We need different treatment options depending upon the age of patient, severity of disease ,past medicines taken by patient and depending upon the stage of disease we need different treatment options at different times.

Different treatment option is needed for vitiligo and **Psoriasis Treatment** when disease is spreading and when it is stable.

At kayakalap global we have developed a unique treatment method for treating skin disorders which combines speed with safety and long term maintenance .Thus ending the confusion regarding choosing the right treatment approach

ABOUT DOCTOR

Doctor Shailender Dhawan belongs to a family of doctors practicing and specializing in Traditional Ayurvedic Medicines. He completed his graduation in Ayurvedic Sciences in the year 1992 from Laxmi Narayan Ayurvedic Medical College, Amritsar (Punjab), a very reputed and known University for Ayurvedic system of medicines and did his M.D.in Alternate medicine from Mumbai university .

His wife Dr. Suman Dhawan is also a graduate in Ayurvedic medicine and is specialize in cosmetology in skin care and has actively contributed her time and expertise for all the research projects Dr Shailender Dhawan carried out. Dr Shailender Dhawan had treated thousands of cases suffering from psoriasis and Vitiligo from India and abroad.

Dr Dhawan is working with Dr.Teresa Torres from Bolivia and integrated treatment is provided to patients in Bolivia suffering from psoriasis and vitiligo with great success.

Dr. Dhawan in collaboration with E.com consultant Herbal division Canada presented the studies about role of herbal medicines in skin diseases at national psoriasis foundation USA in nov.2006.

All the medicines were screened for safety and efficacy by American food and drug administration (FDA).and FDA approval for treatment was granted in 2007.

Dr Dhawan presented his research work to various medical bodies. He attended the 33rd Annual conference of Indian Association of Dermatologists, Venereologists and Leprologists (IADVL) on 3rd February, 2005. He was the only graduate from Indian system of medicine to attend the conference. Detailed discussions were held with eminent doctors from other parts of the world on Vitiligo and Psoriasis-Causes and its Treatment.

Dr Terence J Ryan of Oxford University, UK and many other doctors from USA and UK accepted this Ayurvedic line of diagnosis and treatment. They all pledged to work in coordination with each other to cure this disease.

Dr.terence .J. Rayan is at present working with Institute of applied dermatology in India .Main area of work is filariasis.

In his lecture at conference he expressed his views about promoting Indian systems of medicine .

Dr. Andreas katsambas from Greece requested Dr Dhawan to attend 15th Congress of European Academy of Dermatology in Greece on Oct, 2006.
